**About the Journal**

Frontier Energy System and Power Engineering, FESPE, is an International Journal registered at e-ISSN: 2720-9598. FESPE is officially published by Electrical Engineering, State University of Malang, Indonesia. This journal is the Peer Review and Open Access International Journal, published twice a year in January and July relating to the broad scope of the Energy System and Power Engineering. FESPE provides a flagship forum for academics, researchers, industry professionals, engineers, consultants, managers, educators, and policymakers who work in engineering to contribute and disseminate new innovative works in energy systems, power engineering, and other related themes.

**Aim and Scope**

The purpose of FESPE is to be a platform for Scholars, Academics, Researchers, Writers, Engineers, Technicians, and others through the promotion of discoveries, views, innovations, analyzes, and new research results in various fields of electrical engineering to advance and develop technology for a better life. The FESPE is concerned in a wide-scope of the Energy System and Power Engineering, including all related partial topics, but not limited, such as:

- Power Generation and Distributed Generation
- Power Engineering and Smart Grid
- Transmission and Distribution Systems
- Protection System and Security
- Automation and Control in Power system
- Power System Optimization
- Power Quality and Energy Management
- High Voltage and Insulation Technology
- SCADA and Power System Information
- Renewable Energy and Energy Conversion
- Energy System and Energy efficiency
- Intelligent Optimization for Management Energy
- Advanced Material for Renewable Energy
- Storage and Battery Technology
- Energy Exploration and Exploitation
- Green Energy and Natural Source
- Power Control and Stability System
- Power Consumption and Energy Prediction
- Electric Vehicle and green technology
- Power Electronics and Motor Drives
- Etc.

### **Call for Paper**

The FESPE invites you to submit your research works via our Online Submission System or through E-mail at [fespe@um.ac.id](mailto:fespe@um.ac.id) or [fespe.journal@gmail.com](mailto:fespe.journal@gmail.com). Make sure that the submitted manuscript should not have been submitted or published previously anywhere else for publication. All received manuscripts will go through Peer Reviews and plagiarism checker.

Frequency: 2 Issues per year

Areas Covered: Multidisciplinary on Energy and Power Systems

Accepted Language: English only

### **Publication Charges**

The FESPE is published with NO CHARGE for the author.

### **Open Access Statement**

The FESPE follows Open Access as a publishing model. Based on this model, each paper is provided hopefully immediate, worldwide, barrier-free access to the full text for everyone. In this model, the publication costs are covered by the publisher with all published manuscripts that are freely available to all interested online readers.

### **Content Disclaimer**

The views and opinions expressed in the articles published in this journal are not FESPE views or opinions. In each article, the author is responsible for own content. FESPE has the right to make changes or deletions of content at any time without notice. FESPE does not state or guarantee that the information available on or through the website will be true, accurate, timely or reliable. Any research content written by the author is the opinion of the author and is not intended to defame religion, ethical groups, clubs, organizations, companies, individuals or anyone or anything. Any errors in the content found are the writer's mistake.

### **Author**

The authors should use a template and follow the instructions set. In detail, the manuscript should be written in a maximum of 10 pages type with 'Times New Roman' font style, and following the TEMPLATE of FESPE and the accepted manuscript must be accompanied with the COPYRIGHT of FESPE. Each reference should be cited in the main related passage and it should be written using a Reference tool, such as Mendeley or Zotero using the IEEE style.

### **Reviewers and Editors**

We invite researchers, practitioners, analyzers, academicians who want to be a reviewer or editor board members. Please send your CV to [fespe@um.ac.id](mailto:fespe@um.ac.id) or [fespe.journal@gmail.com](mailto:fespe.journal@gmail.com).

### **Conference Partner**

The publication partner for the international conference please send a proposal to [fespe@um.ac.id](mailto:fespe@um.ac.id) or [fespe.journal@gmail.com](mailto:fespe.journal@gmail.com).

**Table of Content**

<b>No</b>	<b>Title/Author</b>	<b>Page</b>
1	<b>Hybrid System of Dual Axis Photovoltaic Tracking System Using ANFIS-ACO</b> <i>Machrus Ali, Rukslin</i>	1-12
2	<b>Synchronous AC Chopper For Universal Motor Speed Control Using Fuzzy Logic</b> <i>Andi Setiawan, Widjonarko, Candrika Kumaratungga</i>	13-24
3	<b>Trends of Biogas Development and Usages in Developing Countries A Case of Bhutan</b> <i>Hemlal Bhattarai</i>	25-33
4	<b>The Effect of Penetration Floating Photovoltaic On – Grid in Diponegoro Education Reservoir against Power Quality Distribution Network</b> <i>Karnoto, Hermawan, Pangestuningtyas Diah Larasati, Ali Zaenal Abidin</i>	34-38
5	<b>Transformer Charger Design based on 12V CT Equipped Overcharge Protection</b> <i>Haninda Tria Valentina1, Arif Nur Afandi</i>	39-45

# CALL FOR PAPER

## FRONTIER ENERGY SYSTEM AND POWER ENGINEERING

Frontier Energy System and Power Engineering (FESPE) welcome original research articles or manuscripts as long as their research questions are important, new, and relevant to general readers and their designs are appropriate and robust.

**No Charge**, The FESPE provides an online publication without fee for the submission and process.
